## **MAC111 - INTRODUCTION TO MASS COMMUNICATION**

\_\_\_\_\_ is a common phenomenon that cuts across the daily activities of human being.  
**Communication**

As food and water are very important to man's survival so is \_\_\_\_\_.  
**communication**

\_\_\_\_\_ is always a unique feature that differentiates the living from the dead.  
**Communication**

\_\_\_\_\_ defines communication as a process that involves the transmission of message from a sender to the receiver.  
**Obilade (1989)**

Obilade (1989) defines \_\_\_\_\_ as a process that involves the transmission of message from a sender to the receiver.  
**communication**

\_\_\_\_\_ is the transmission of a message from a source to a receiver or the process of creating shared meaning  
**Communication**

Communication is the transmission of a \_\_\_\_\_ from a source to a receiver or the process of creating shared meaning  
**message**

Communication is the \_\_\_\_\_ of a message from a source to a receiver or the process of creating shared meaning  
**transmission**

Communication is the transmission of a message from a source to a \_\_\_\_\_ or the process of creating shared meaning  
**receiver**

A photocopier may see communication as meaning different thing from the way a marketer perceives it.  
**True**

\_\_\_\_\_ define communication as "the process by which an individual (the communicator) transmits stimuli (usually verbal symbols) to modify the behaviour of the other individuals (communicates)."  
**Psychologists**

\_\_\_\_\_ see communications "as the mechanism through which human relations exist and develop."  
**Sociologists**

\_\_\_\_\_ is the process whereby one person tells another something through the written or spoken word.

**Communication**

The word ‘‘Communication’’ is a \_\_\_\_\_ word

**Latin**

Communication is from a Latin word-\_\_\_\_\_

**Communis**

Communication is from a Latin word ‘‘COMMUNIS’’ which means \_\_\_\_\_

**common or shared understanding**

\_\_\_\_\_ is the process of exchanging or sharing information, ideas and feeling between the sender and the receiver.

**Communication**

Communication is very central to all human activities

**True**

Communication is very central to all human activities because \_\_\_\_\_

**everything we do and do not, communicate**

Man’s interaction with other human beings is a result of \_\_\_\_\_.

**communication**

\_\_\_\_\_ is the key around which human life revolves.

**Communication**

Communication is \_\_\_\_\_, every man is born with the ability, from childhood, we learn to communicate by crying, smiling, kicking etc.

**innate**

Communication is \_\_\_\_\_, ongoing and ever changing

**dynamic**

Communication is made up of activities of interrelated elements which continue to function in the communication process.

**True**

Human interaction is possible because \_\_\_\_\_

**we can communicate**

We relate with friends, parents, colleagues, etc because \_\_\_\_\_

**we share codes that make us understand each other**

\_\_\_\_\_ provides opportunity to transact business and engage in trade.

**Communication**

Communication provides opportunity to transact \_\_\_\_\_ and engage in trade.

**business**

Communication provides opportunity to transact business and engage in \_\_\_\_\_.

**trade**

Communication provides opportunity to \_\_\_\_\_ business and engage in trade.  
**transact**

Communication provides \_\_\_\_\_ to transact business and engage in trade.  
**opportunity**

In classroom situation, a \_\_\_\_\_ is able to impart knowledge into students through communication.  
**teacher**

In classroom situation, a teacher is able to impart \_\_\_\_\_ into students through communication.  
**knowledge**

\_\_\_\_\_ is made possible through communication  
**Development**

Communication helps to mobilise people to work together for their \_\_\_\_\_ and political development.  
**social**

Communication helps to mobilise people to work together for their social and \_\_\_\_\_ development.  
**political**

Communication enables exchange of \_\_\_\_\_ and values.  
**culture**

Communication enables exchange of culture and \_\_\_\_\_.  
**values**

Communication could be defined based on its perceived \_\_\_\_\_.  
**functions**

\_\_\_\_\_ refers to communication as the process of sharing meaning through the use of symbols.  
**Bennett (1976)**

\_\_\_\_\_ refers to communication as “all forms of information transfer and persuasion concerning a product”.  
**Keegan (1980)**

\_\_\_\_\_ opines that “communication means the flow of material information, perception and understanding between various parts and members of an organization”.  
**Luthans (1985)**

\_\_\_\_\_ is a means of disseminating information or message to large, anonymous, and scattered heterogeneous masses of receivers who may be far removed from the message sources through the use of sophisticated equipment.  
**Mass communication**

\_\_\_\_\_ represents the creation and sending of a homogeneous message to a large heterogeneous audience through the media.  
**Mass Communication**

\_\_\_\_\_ studies the uses and effects of the media by many as opposed to the study of human interaction as in other communication contexts.  
**Mass communication**

\_\_\_\_\_ defines Mass Communication as the process of creating shared meaning between the mass media and their audience.

**Stanley Baran**

\_\_\_\_\_ defines Mass Communication as messages communicated through a mass medium to a large number of people.

**John Bittner**

\_\_\_\_\_ can be defined as a device by which a group of people working together transmits information to a large heterogeneous and anonymous audience simultaneously.

**Mass Communication**

\_\_\_\_\_ is a process by which information originates from the source to the receiver, having been thoroughly filtered and transmitted through a channel

**Mass Communication**

The following are the features of mass communication

1. Mass Medium
2. Presence of Gatekeepers
3. Delayed Feedback
4. Limited Sensory Channels
5. Impersonal Vs Personal Communication

For a medium to be regarded as mass in communication it must have acquired \_\_\_\_\_ adopters  
**fifty million**

Radio, Television, internet etc are examples of media which are regarded as mass media because \_\_\_\_\_

**they can reach out to no fewer than fifty million audience at a time**

In mass communication sent messages do not reach the audience in raw form.

**True**

In mass media organizations, the \_\_\_\_\_ are usually the reporters, sub-editors, editors, producers, writers, etc.

**gatekeepers**

The concept of gatekeeper was first coined by \_\_\_\_\_

**Kurt Lewin**

\_\_\_\_\_ describes gatekeepers as individuals or groups of persons who govern the travels of news items in the communication channels.

**Kurt Lewin**

Kurt Lewin who describes \_\_\_\_\_ as individuals or groups of persons who govern the travels of news items in the communication channels.

**gatekeepers**

\_\_\_\_\_ could be defined as any person or formally organized group directly involved in relaying or transferring information from one individual to another through a mass medium.

**Gatekeepers**

The following are the functions of a gatekeeper

---

**PLEASE PATRONISE US FOR MORE EXAM SUMMARY, PAST QUESTION AND TMA**

**WHATSAPP 08024665051, 08169595996 winsmartacademy@gmail.com** Page 4

1. Limiting the information through editing before dissemination.
2. Expanding the amount of information by injecting additional views or angles.
3. Reorganizing or Reinterpreting the information gathered before disseminating it.

Burgoon et al 1978 cited in Folarin 1994 says “\_\_\_\_\_ is often limited, delayed and indirect”.

### **Feedback**

\_\_\_\_\_ are usually subject to additional feedback in form of criticism in other media, such as a television critic writing a column in a newspaper

### **Mass Communicators**

Feedback in mass communication is not instant.

### **True**

\_\_\_\_\_ coined the term ‘delayed inferential feedback’

### **Stanley Baran**

\_\_\_\_\_ feature has to do with the fact that mass medium limits the number of sensory channels upon which audience can draw

### **limited sensory channels**

\_\_\_\_\_ is a dynamic process of sharing information between individuals.

### **Human Communication**

The easiest way to distinguish mass communication from other parts of human communication is \_\_\_\_\_

### **to highlights the unique features inherent in mass communication**

Communication traverses every facet of human life.

### **True**

Without communication nothing can be done.

### **True**

\_\_\_\_\_ holds the foundation of every human society.

### **Communication**

\_\_\_\_\_ is the process of exchanging, transmitting, transferring, expressing or importing ideas, sentiments, attitudes, feelings, meanings, information or opinion between individuals, groups or organizations.

### **Communication**

Mass communication got its origin from the fundamental process of \_\_\_\_\_ that enables man-to-man discussion and communicative interactions.

### **human communication**

The following are the three distinguishing features of mass communication

- a. nature of audience
- b. the communication experience
- c. the communicator

By nature, mass communication audience has \_\_\_\_\_ peculiar features.

### **four**

The \_\_\_\_\_ nature of the audience of mass communication makes it very difficult to address mass communication messages to specific audience or group of people.

**large**

By \_\_\_\_\_, we mean mass communication messages cannot be segregated.

**heterogeneous**

\_\_\_\_\_ holds that messages of mass communication are at the disposal of the audience at the same time or simultaneously, or instantly.

**Simultaneity**

A \_\_\_\_\_ might decide not to read the pages of a book almost immediately.

**reader**

\_\_\_\_\_ talks about the particular medium through which the medium will pass through.

**Nature of communicator**

\_\_\_\_\_ refers to the ease with which a medium's paraphernalia (facilities) of production can be moved from one place to another.

**Mobility**

By \_\_\_\_\_, we mean the power of the medium of mass communication to carry the recipient over to the scene of an event.

**proximity**

\_\_\_\_\_ refers to the exactitude with which a medium reproduces the original physical dimensions of images of the messages being sent across.

**Fidelity**

Every medium of mass communication requires one to pay before sending messages through it.

**True**

A full colour page advert in an average Nigeria newspaper costs no less than \_\_\_\_\_

**N150, 000**

A 60 second slot in NTA costs one an average of \_\_\_\_\_.

**N100, 000**

\_\_\_\_\_ refers to the extensiveness or commonness of a medium

**Universality**

\_\_\_\_\_ refers to the period for which a medium can hold its message thereby making the message reviewable.

**Permanency**

Sambe (2005:35) highlighted the elements of the characteristics of media of mass communication as follows:

- a) Emphasis
- b) Fidelity
- c) Circulation
- d) Reproduction
- e) Feedback
- f) Support

Communication is \_\_\_\_\_ because both the source and the receiver are having an impact on one other.

## **transactional**

Communication is transactional because \_\_\_\_\_  
**both the source and the receiver are having an impact on one other**

\_\_\_\_\_ means that the meanings attached to communication exist in the participants and not in the non-verbal symbols we employ in communicating.

## **Personal**

\_\_\_\_\_ means that communication provides satisfaction to the communicator.

## **Consummatory**

Communication can be used as a \_\_\_\_\_ to control our environment and to affect or influence other people.

## **tool**

Communication is not static.

## **True**

There is no beginning and no end to communication in a person's life.

## **True**

Communication process cannot be turned back.

## **True**

Once a message is sent, it cannot be withdrawn.

## **True**

A given communication act cannot be recreated.

## **True**

Communication as a process is \_\_\_\_\_  
**dynamic, recursive, on-going, continuous and cyclical**

Communication as a process is \_\_\_\_\_, recursive, on-going, continuous and cyclical.  
**dynamic**

Communication as a process is dynamic, \_\_\_\_\_, on-going, continuous and cyclical.  
**recursive**

Communication as a process is dynamic, recursive, \_\_\_\_\_, continuous and cyclical.  
**on-going**

Communication as a process is dynamic, recursive, on-going, \_\_\_\_\_ and cyclical.  
**continuous**

Communication as a process is dynamic, recursive, on-going, continuous and \_\_\_\_\_.  
**cyclical**

\_\_\_\_\_ is the point at which the source sees the need to communicate.

## **Stimulation**

The \_\_\_\_\_ processes the message he want to communicate into a form that will be understandable to the receivers.

**source**

The source processes the message he want to communicate into a form that will be understandable to the\_\_\_\_\_.

**receivers**

The \_\_\_\_\_ is passed across to the receiver through a chosen medium or channel.

**message**

The message is passed across to the \_\_\_\_\_ through a chosen medium or channel.

**receiver**

The message is passed across to the receiver through a chosen \_\_\_\_\_ or channel.

**medium**

The message is passed across to the receiver through a chosen medium or\_\_\_\_\_.

**channel**

The \_\_\_\_\_ gets the message that is sent from the source

**receiver**

The receiver gets the message that is sent from the \_\_\_\_\_

**source**

\_\_\_\_\_ is the reaction of the receiver to the message received in form of feedback

**Response**

Response is the reaction of the receiver to the message received in form of \_\_\_\_\_

**feedback**

\_\_\_\_\_ refers to the initiative taken by a sender or source to share information, observation or opinion with others.

**Action**

\_\_\_\_\_ means a response to the action taken by the sender.

**Reaction**

\_\_\_\_\_ means that communication is the spontaneous reciprocity of messages between a sender and a receiver.

**Interaction**

\_\_\_\_\_ is the stage of exchange of messages between two or more persons sharing common experiences, codes or symbols.

**Interaction**

\_\_\_\_\_ as a process of communication creates an overlap of field of experience between a source and a recipient.

**Interaction**

\_\_\_\_\_ is the impulse that triggers off the communication exchange.

**Stimulus**

\_\_\_\_\_ is the person who begins the communication process.

**Source**

\_\_\_\_\_ could be the idea, feelings, information, thought, opinion, knowledge or experience etc. that the source/sender wants to share.

**Message**

\_\_\_\_\_ could be regarded as the form adopted by the sender of the message to get it to the receiver.

**Medium**

\_\_\_\_\_ provides a link that enables the source and the receiver to communicate.

**Channel**

\_\_\_\_\_ is the person to whom the message is sent.

**Receiver**

\_\_\_\_\_ is the target audience or the recipient of the message.

**Receiver**

\_\_\_\_\_ is the response or reaction of the receiver to the message sent.

**Feedback**

Communication is incomplete without \_\_\_\_\_.

**feedback**

\_\_\_\_\_ confirms that the message is well received and understood.

**Feedback**

\_\_\_\_\_ guides the source in communication process and helps him to know when to alter or modify his message if not properly received.

**Feedback**

A \_\_\_\_\_ is positive when it shows that the message has been well received and understood and it could be negative when it shows that the intended effect has not been achieved

**feedback**

\_\_\_\_\_ is interference that keeps a message from being understood or accurately interpreted.

**Noise**

\_\_\_\_\_ comes from the environment and keeps the message from being heard or understood.

**Physical noise**

\_\_\_\_\_ comes from within as a result of poor mental attitude, depression, emotional stress or disability.

**Psychological noise**

\_\_\_\_\_ results form interference from the body in form of body discomforts, feeling of hunger, tiredness etc

**Physiological noise**

\_\_\_\_\_ is from the source's inability to use the language of communication accurately and appropriately.

**Linguistic noise**

A \_\_\_\_\_ is a symbolic representation that shows how elements of a structure or system relate for analysis and discussion purposes.

**model**

\_\_\_\_\_ help to explain the process of communication.

**Communication models**

\_\_\_\_\_, writing 300 years before the birth of Christ, provided an explanation of oral communication that is still worthy of attention.

**Aristotle**

\_\_\_\_\_ called the study of communication "rhetoric" and spoke of three elements within the process.

**Aristotle**

Aristotle called the study of communication \_\_\_\_\_ and spoke of three elements within the process.

**rhetoric**

\_\_\_\_\_ speaks of a communication process composed of a speaker, a message and a listener.

**Aristotle**

According to Lasswell, communication occurs when:

- a source sends a message
- through a medium
- to a receiver
- producing some effect

\_\_\_\_\_ proposed a verbal model to describe the process through which communication works.

**Lasswell**

The point in Lasswell's comment is that \_\_\_\_\_

**there must be an "effect" if communication takes place**

Lasswell's version of the communication process mentions \_\_\_\_\_ parts

**four**

\_\_\_\_\_ model made a clear case for delayed feedbacks in mass communication.

**Schramm's Model**

The feedback is represented by a dotted line labeled \_\_\_\_\_.

**delayed inferential feedback**

Hiebert, Ungurait and Bohn designed the \_\_\_\_\_ model.

**Hub Model**

\_\_\_\_\_ shows mass communication process as circular, dynamic and ongoing.

**Hub Model**

\_\_\_\_\_ pictures communication as a process similar to the series of actions that take place when one drops a pebble into a pool.

**Hub Model**

\_\_\_\_\_ is the echo that bounces back to communication

**Feedback**

Communication models are designed to better explain communication \_\_\_\_\_ and concepts.

**theories**

Communication models are designed to better explain communication theories and \_\_\_\_\_.  
**concepts**

\_\_\_\_\_ are communication tools that illustrate communication behaviour.  
**Models**

\_\_\_\_\_ is a conceptual representation or explanation of phenomenon.  
**Theory**

\_\_\_\_\_ defines theory as a way of explaining the ordering and occurrence of various events.  
**Kurt Lewin**

Kurt Lewin defines \_\_\_\_\_ as a way of explaining the ordering and occurrence of various events.  
**theory**

\_\_\_\_\_ can be defined as a set of systematic generalizations based on scientific observation and leading to further empirical observation.  
**Theory**

\_\_\_\_\_ help to manage realities.  
**Theories**

Theories help to manage \_\_\_\_\_.  
**realities**

\_\_\_\_\_ says that theories enable us to put facts in perspective, and to predict what will happen, even before the events we are theorising about get completed.  
**Kurt Lewin**

Theories are derived through a process known as \_\_\_\_\_.  
**scientific method**

\_\_\_\_\_ is the definition of the subject of inquiry.  
**Conceptualisation**

\_\_\_\_\_ involves translation of general concepts into specific variables and specification of the procedure adopted in research.  
**Operationalisation**

\_\_\_\_\_ is the careful study (observation) of the specified variables from available data, using any modes of research.  
**Observation**

\_\_\_\_\_ involves extracting meaning from the facts observed.  
**Analysis**

The findings from the test are used to make some \_\_\_\_\_, regarding the subject of inquiry.  
**generalizations**

\_\_\_\_\_ are formulated from the generalisation made as a result of our analysis and testing.  
**Theories**

Theories are formulated from the \_\_\_\_\_ made as a result of our analysis and testing.

## **generalization**

Laws are difficult to come by in social sciences because \_\_\_\_\_  
**we study human organisation and behaviour, which are capricious**

Any scientific assertion needs to have both \_\_\_\_\_ and empirical support  
**logical**

Any scientific assertion needs to have both logical and \_\_\_\_\_ support  
**empirical**

\_\_\_\_\_ provides the logical support  
**Theory**

Theory provides the \_\_\_\_\_ support  
**logical**

\_\_\_\_\_ provides the empirical (observation) support.  
**Research**

Research provides the \_\_\_\_\_ support.  
**empirical**

\_\_\_\_\_ is a type of theory that describes an ideal way for media systems to be structured and operated.  
**Normative Theory**

\_\_\_\_\_ do not describe things as they are nor do they provide scientific explanations; instead, they describe the way things shall be if some ideal values or principles are to be realised.  
**Normative theories**

\_\_\_\_\_ is the oldest of the press theories.  
**Authoritarian Media Theory**

\_\_\_\_\_ is an idea that placed all forms of communication under the control of a governing elite or authorities.  
**Authoritarian Media Theory**

The \_\_\_\_\_ government may go to the extent of punishing anyone who questions the state's ideology.  
**authoritarian**

The authoritarian government may go to the extent of punishing anyone who questions the state's \_\_\_\_\_.  
**ideology**

The fundamental assumption of the \_\_\_\_\_ system is that the government is infallible.  
**authoritarian**

The fundamental assumption of the authoritarian system is that the government is \_\_\_\_\_.  
**infallible**

Authoritarian media still operate today in countries where the press is largely owned or controlled by government (mostly repressive government).

**True**

\_\_\_\_\_ prescribes that an individual should be free to publish what he or she likes and to hold and express opinions freely.

**Libertarian Media Theory**

\_\_\_\_\_ sees the press as a free 'market place' of ideas- that all ideas should be put before the public, and the public will choose the best from that 'market place' (Milton Selfrighting principles).

**Libertarian Media Theory**

\_\_\_\_\_ does not advocate media immunity to the rule of law but asserts that people should be seen as rational beings able to distinguish between good and bad, truth and falsehood- which renders prior censorship of media unnecessary.

**Libertarian theory**

The \_\_\_\_\_ is closely tied to a specific ideology

**Soviet theory**

Siebert traces the roots of Soviet theory back to the \_\_\_\_\_  
**1917**

\_\_\_\_\_ advocates the complete domination of media by a communist government for the purpose of forcing those media to serve the party.

**Soviet-Communist Media Theory**

The main task of the press is \_\_\_\_\_

**to promote the socialist system and maintain the sovereignty of the proletariat (working class) via communist party**

The four working principles of soviet press are

- Truthfulness
- Partiality
- Commitment to the people
- Mass culture

Soviet theory differs from the authoritarian theory in that \_\_\_\_\_

**the media organizations have a certain responsibility to meet the wishes of their audience**

\_\_\_\_\_ emerged as a result of conflict between professionalism and self-regulation of the press and pressure for greater regulation of the media.

**Social Responsibility Theory**

The Hutchins Commission on Freedom of the press was established in \_\_\_\_\_ and released its report in 1947.

**1942**

The Hutchins Commission on Freedom of the press was established in 1942 and released its report in \_\_\_\_\_.

**1947**

\_\_\_\_\_ theory advocates media support for cultural pluralism at a grassroots level.

**Democratic-Participant Media Theory**

The \_\_\_\_\_ are to be used to stimulate and empower pluralistic groups.

## **media**

The media are to be used to stimulate and empower \_\_\_\_\_ groups.

### **pluralistic**

\_\_\_\_\_ advocates media support for an existing political regime and its efforts to bring about national economic development.

### **Development media theory**

\_\_\_\_\_ argues that until a nation is well established and its economic development well underway, media must be supportive rather than critical of government.

### **Development media theory**

\_\_\_\_\_ seeks to locate media structure and performance within the milieu in which it operates.

### **Normative theory**

\_\_\_\_\_ was a media theory that saw the media as all-powerful and supremely effective; and believed that all human beings responded the same way to the powerful influence from the media.

### **Magic Bullet Theory**

\_\_\_\_\_ theory was a propaganda theory, produced by a combination of Behaviourist and Freudian schools of thought.

### **Magic Bullet Theory**

\_\_\_\_\_ held that human action was as a result of or response to external environmental stimuli.

### **Behaviourism**

Hypodermic Needle is also called \_\_\_\_\_

### **Magic Bullet Theory**

\_\_\_\_\_ saw the media as conveying external stimuli that can condition anyone to behave in whatever way a master propagandist wants

### **Magic Bullet**

People were viewed as \_\_\_\_\_ to consciously resist manipulation no matter their level of education or social status.

### **powerless**

People were viewed as powerless to consciously resist manipulation no matter their level of \_\_\_\_\_ or social status.

### **education**

People were viewed as powerless to consciously resist manipulation no matter their level of education or \_\_\_\_\_.

### **social status**

The \_\_\_\_\_ was viewed as a mere façade, incapable of resisting powerful messages.

### **rational mind**

\_\_\_\_\_, proposed a theory that attempted to explain disturbing events of the times.

### **Harold Lasswell**

\_\_\_\_\_ argued that the worldwide economic depression and political strife had made people particularly vulnerable to propaganda conveyed by the mass media.

### **Lasswell**

\_\_\_\_\_ posited that the power of propaganda was not so much the result of the substance or appeal of specific messages but, rather, the result of the vulnerable state of mind of average people.

**Lasswell**

\_\_\_\_\_ said that mediated propaganda conditioned the audience slowly over time.

**Propaganda Theory**

The \_\_\_\_\_ ascribed great persuasive power to a technocratic elite.

**Propaganda Theory**

The Propaganda Theory ascribed great \_\_\_\_\_ to a technocratic elite.

**persuasive power**

The Propaganda Theory ascribed great persuasive power to a \_\_\_\_\_.

**technocratic elite**

\_\_\_\_\_ theory stressed the inability of average people to make sense of their world and make rational decisions about their actions.

**Lippman's Theory of Public Opinion Formation**

Lippman did not believe in the Libertarian assumptions of the rational audience

**True**

\_\_\_\_\_ are generalisations derived from systematic observation and objective analysis of mass media variables, by employing methods associated with empirical research in the social sciences.

**Social scientific theories**

\_\_\_\_\_ argues that because people vary greatly in their psychological compositions and because they have different perceptions of things, media influence differs from person to person.

**Individual Differences Perspective**

\_\_\_\_\_ assumes that members of a given social category will respond to media stimuli in more or less uniform ways.

**Social Category Perspective**

\_\_\_\_\_ posits that people's reaction to media messages is modified by their informal social relationships with significant others like relations, friends, social groups etc.

**Social Relations Perspective**

\_\_\_\_\_ states that media messages pass through opinion leaders to opinion followers

**Two-Step Flow Theory**

\_\_\_\_\_ was later modified to Multi-Step or N-Step flow theory

**Two-Step flow**

Two-Step flow was later modified to \_\_\_\_\_ or N-Step flow theory

**Multi-Step**

Two-Step flow was later modified to Multi-Step or \_\_\_\_\_

**N-Step flow theory**

\_\_\_\_\_ further corroborates the fact that the media are not all-powerful as the belief was in the mass society era.

## **Dissonance theory**

The idea in dissonance theory is that\_\_\_\_\_

**any information that is not consistent with a person's already-held values and beliefs will create a psychological discomfort (dissonance) that must be relieved**

The 'ways' of doing this have become known as the\_\_\_\_\_.

**selective processes**

\_\_\_\_\_ explains that selective process helps media content consumers to cope with media's impact.

**Klapper (1960)**

\_\_\_\_\_ is people's tendency to seek out information that supports their interest, confirms their beliefs and boosts their ego while avoiding those that are contrary to their predispositions.

**Selective exposure**

\_\_\_\_\_ is the mental recasting of a message so that its meaning is in line with a person's beliefs and attitudes.

**Selective perception**

\_\_\_\_\_ is a psychological process, which involves decoding of communication messages and ensuring that they align with your previous experiences and current dispositions – needs, moods and memories.

**Selective perception**

\_\_\_\_\_ is the process by which people tend to remember best and longest information that is consistent with their pre-existing attitudes or interests.

**Selective pretention**

Social-Scientific Theories are also referred to as\_\_\_\_\_

**Limited Effects Theories**

\_\_\_\_\_ posits that the mass media determines the issues that are regarded as important at a given time in a given society.

**Agenda Setting Theory**

\_\_\_\_\_ corroborate the agenda setting theory by their research.

**Maxwell McCombs and Donald Shaw**

The elements involved in agenda setting include:

- (1) The quality or frequency of reporting
- (2) Prominence given to the reports – headlines display, layout, timing on radio and TV set
- (3) The degree of conflict generated in the reports
- (4) Cumulative media-specific effects over time

Main Streaming is also called\_\_\_\_\_

**Synchronisation Theory**

\_\_\_\_\_ theory explains the process, especially for heavier viewers, by which television's symbols monopolise and dominate other sources of information and ideas about the world.

**Synchronisation Theory**

There are \_\_\_\_\_ aspects to mainstreaming

**two**

\_\_\_\_\_ involves detailed content analysis of selected media content {especially television programming} to assess recurring and consistent presentation of images, themes, value, and portrayals.

### **Message analysis**

\_\_\_\_\_ theory establishes that the media systematically inform some segments of the population; especially those in higher socio-economic groups, better than they inform others.

### **Knowledge Gap Theory**

\_\_\_\_\_ describes the tendency for people holding views contrary to those dominant in the media to keep them to themselves for fear of rejection.

### **Spiral of Silence Theory**

\_\_\_\_\_ determine the occurrence and shape of media effect and it is related to how the audience uses the media.

### **Audience members**

Media will equally influence not everyone.

### **True**

In Herta Herzog's study of the use of radio soap opera, three (3) major types of gratification were identified:

1. A means of emotional release
2. Opportunities for wishful thinking – commonly recognised form of enjoyment
3. Advice obtained from listening to daytime serials – commonly unsuspected

\_\_\_\_\_ argued that media content can be regarded as a text that is made up of signs.

### **Halls (1980)**

\_\_\_\_\_ states that viewing violence is sufficient to purge or at least satisfy a person's aggressive drive and, therefore, reduce the likelihood of aggressive behaviour.

### **Catharsis theory**

\_\_\_\_\_ believes that people who see mediated violence show higher levels of subsequent aggression.

### **Aggressive Cues Theory**

\_\_\_\_\_ encompasses both identification and imitation to explain how people learn through observation of others in their environment.

### **Social learning theory**

\_\_\_\_\_ is a form of imitation in which copying a model, generalised beyond specific acts, springs from wanting to be and trying to be like the model with respect to some broader quality.

### **Identification**

\_\_\_\_\_ involves the tendency, especially by children, to identify with admired aggressive heroes and copy their behaviour whenever a relevant situation arises.

### **Identification**

\_\_\_\_\_ is the direct, mechanical reproduction of behaviour.

### **Imitation**

The possibility of actualising what is seen is enhanced when:

1. The subject expects to be rewarded for such behaviour
2. There is close similarity between the dramatized violence and real – life situation the subject subsequently encounters

\_\_\_\_\_ states that mass- mediated violence simply reinforce the existing aggressive inclinations that people bring to media exposure.

### **Reinforcement Theory**

\_\_\_\_\_ theory states that children tend to perceive a link between massmediated fantasy and concrete reality.

### **Linkage Theory**

Reflective-Projective' Theory theory was proposed by \_\_\_\_\_

### **Lee Loevinger**

Play Theory was proposed by \_\_\_\_\_

### **William Stephenson**

\_\_\_\_\_ says that people use mass communication more as play than as work, more for pleasure and entertainment than for information and improvement.

### **Stephenson**

\_\_\_\_\_ focuses on the medium characteristics itself (like in media richness theory) rather than on what it conveys or how information is received.

### **Medium theory**

The \_\_\_\_\_ helps sanitise the society of all forms of corruption by scrutinizing the actions, policies, and performance of those who govern.

### **Press**

Surveillance Function is otherwise known as \_\_\_\_\_.

### **news function of mass communication**

News function of mass communication is otherwise known as \_\_\_\_\_ function

### **Surveillance**

\_\_\_\_\_ involves scouting the environment to bring the evidence essential for information [news] about major happenings in the society.

### **Surveillance function**

The word \_\_\_\_\_ connotes a careful monitoring of something done in secret.

### **surveillance**

\_\_\_\_\_ is synonymous to 'watchdog' role of the press.

### **Surveillance concept**

Surveillance concept is synonymous to \_\_\_\_\_ role of the press.

### **watchdog**

By \_\_\_\_\_ role, the journalist owes the public duty of digging out hidden deeds and untold/unheard dealings.

### **watchdog**

By watchdog role, the \_\_\_\_\_ owes the public duty of digging out hidden deeds and untold/unheard dealings.

**journalist**

The \_\_\_\_\_ or watchdog function of the press enables the mass media to beam their searchlight on the three arms of government, parastatals and the society at large.

**surveillance**

The surveillance or \_\_\_\_\_ function of the press enables the mass media to beam their searchlight on the three arms of government, parastatals and the society at large.

**watchdog**

The \_\_\_\_\_ function of the press is its basic responsibility.

**surveillance**

Any mass media worth its \_\_\_\_\_ must constantly live up to its social responsibility role which is done through the watchdog approach.

**salt**

Any mass media worth its salt must constantly live up to its social responsibility role which is done through the \_\_\_\_\_ approach.

**watchdog**

In \_\_\_\_\_, two gangsters emerged from the crime scene in Nigeria, namely Lawrence Anini and Monday Osunbor.

In 1986, \_\_\_\_\_ gangsters emerged from the crime scene in Nigeria

**two**

In 1986, two gangsters emerged from the crime scene in Nigeria, namely \_\_\_\_\_ and Monday Osunbor.

**Lawrence Anini**

In 1986, two gangsters emerged from the crime scene in Nigeria, namely Lawrence Anini and \_\_\_\_\_.

**Monday Osunbor**

In 1986, two gangsters emerged from the crime scene in Nigeria, namely \_\_\_\_\_

**Lawrence Anini and Monday Osunbor**

The surveillance role of the press in tracking down another notorious armed robber, \_\_\_\_\_ in 1992 was equally cited.

**Shina Rambo**

The surveillance role of the press in tracking down another notorious armed robber, Shina Rambo in \_\_\_\_\_ was equally cited.

**1992**

\_\_\_\_\_ was described as a dare-devil kingpin, slim, dark and of average height, possessing two tribal marks one on each cheek characteristic of indigenes of Ondo town

**Rambo**

Rambo was described as a dare-devil kingpin, slim, dark and of average height, possessing two tribal marks one on each cheek characteristic of indigenes of \_\_\_\_\_ town

**Ondo**

The \_\_\_\_\_ function of mass communication is otherwise known as the opinion or editorial function of the press.

**correlation**

The correlation function of mass communication is otherwise known as the \_\_\_\_\_ or editorial function of the press.

**opinion**

The correlation function of mass communication is otherwise known as the opinion or \_\_\_\_\_ function of the press.

**editorial**

\_\_\_\_\_ refers to the process of editorial selection, interpretation and prescription through which the mass media help their consumers to better understand the information brought to them.

**Correlation function**

By the \_\_\_\_\_ function, the media provide the background social context and critical analyses necessary for that understanding.

**correlation**

The \_\_\_\_\_ function is best illustrated in columns and editorial pages of news papers where the columnist may compare statements made by political office holders with conflicting statements made by other politicians or personal views on a matter.

**correlation**

By nature, \_\_\_\_\_ is meant to ease tension and stress.

**entertainment**

By nature, entertainment is meant to ease \_\_\_\_\_ and stress.

**tension**

By nature, entertainment is meant to ease tension and \_\_\_\_\_.

**stress**

\_\_\_\_\_ is synonymous to relaxation.

**Entertainment**

Entertainment is synonymous to \_\_\_\_\_.

**relaxation**

In the contemporary world, \_\_\_\_\_ magazines and newspapers are on the increase and their targeted audiences who are predominantly the youths are patronizing the print media products.

**pornographic**

Magazines like \_\_\_\_\_ are doing purely photo journalism.

**Ovation**

Magazines like Ovation are doing purely \_\_\_\_\_ journalism.

**photo**

Magazines like Ovation are doing purely\_\_\_\_\_.  
**photo journalism**

\_\_\_\_\_ no doubt is more for entertainment and relaxation than information.  
**Ovation**

\_\_\_\_\_ as a broadcast medium which lifeblood is sound is equally doing well in entertaining the public through programmes.  
**Radio**

Radio stations like \_\_\_\_\_ were floated primarily to entertain people through sports.  
**Brilla FM**

\_\_\_\_\_ function entails the passing on or the transfer of a nation's (or society) social heritage from one generation to another.  
**Cultural Transmission**

Sambe (2005) describes the \_\_\_\_\_ function as the preservation of past heritage or culture from one ethnic group to another, one nation to another and from generation to generation for the purpose of promoting and even integrating culture.  
**cultural transmission**

\_\_\_\_\_ describes the cultural transmission function as the preservation of past heritage or culture from one ethnic group to another, one nation to another and from generation to generation for the purpose of promoting and even integrating culture.  
**Sambe (2005)**

\_\_\_\_\_ transmits culture by the way the programmes transmitted reflect the behavioural norms and standard practice in the society.  
**Mass media**

\_\_\_\_\_ promotes and transmits Yoruba culture mostly.  
**Radio Lagos (Tiwantinwa)**

Radio Lagos (Tiwantinwa) promotes and transmits \_\_\_\_\_ culture mostly.  
**Yoruba**

\_\_\_\_\_ defines our realities but communication constructs and maintains our culture.  
**Culture**

The \_\_\_\_\_ is that the media have relatively few direct effects at the personal level.  
**micro thought**

The \_\_\_\_\_ view is that the media have little impact because most people are not directly affected.  
**micro-level**

The \_\_\_\_\_ is that the impact of media operates at the cultural level.  
**macro idea**

\_\_\_\_\_ have a great impact because they influence the cultural climate.  
**Media**

Media have a great impact because \_\_\_\_\_  
**they influence the cultural climate**

\_\_\_\_\_ school sees media as senders of information.

**Transmission**

Transmission school sees media as \_\_\_\_\_.

**senders of information**

The \_\_\_\_\_ views media not as a means of transmitting “message in space” but as a central to “the maintenance of society in time”.

**ritual perspective**

\_\_\_\_\_ is the learned behaviour of members of a given social group.

**Culture**

\_\_\_\_\_ says culture is the learned, socially acquired traditions and lifestyles of the members of a society, including their patterned, repetitive ways of thinking, feeling and activity.

**Harris**

\_\_\_\_\_ says culture is a historically transmitted pattern of meanings embodied in symbolic forms by means of which (people) communicate, perpetuate and develop their knowledge about and attitudes toward life.

**Geertz**

Harris says \_\_\_\_\_ is the learned, socially acquired traditions and lifestyles of the members of a society, including their patterned, repetitive ways of thinking, feeling and activity.

**culture**

Geertz says \_\_\_\_\_ is a historically transmitted pattern of meanings embodied in symbolic forms by means of which (people) communicate, perpetuate and develop their knowledge about and attitudes toward life.

**culture**

\_\_\_\_\_ limits our options and provides useful guidelines for behaviour.

**Culture**

\_\_\_\_\_ provides information that helps us make meaningful distinctions about right and wrong, appropriate and inappropriate, good and bad, attractive and unattractive, and so on.

**Culture**

\_\_\_\_\_ is the world made meaningful; it is socially constructed and maintained through communication.

**Culture**

\_\_\_\_\_ function holds that the mass media confers higher status on individuals in the society through the frequency of reportage done on the individual.

**Status conferral**

Two negative roles of mass communication in the society is the \_\_\_\_\_ and pornography.

**propagation of violence**

Two negative roles of mass communication in the society is the propagation of violence and \_\_\_\_\_.

**pornography**

In Nigeria, the exposure of school children to \_\_\_\_\_ films and other related violent media products have made the children behave violently.

**James Bond**

There are basically \_\_\_\_\_ forms of communication  
**two**

There are basically two forms of communication \_\_\_\_\_ and \_\_\_\_\_  
**verbal and non-verbal**

There are \_\_\_\_\_ major components of verbal communication.  
**two**

The major components of verbal communication are: \_\_\_\_\_ and \_\_\_\_\_  
**Oral (speech) communication and written communication**

\_\_\_\_\_ means communication by word of mouth.  
**Oral communication**

\_\_\_\_\_ is natural and consequently, every child with no physical problem normally acquires the speech form used around him.  
**Speaking**

\_\_\_\_\_ is the most commonly used of the various forms of communication and it pervades all strata of every society.  
**Oral communication**

\_\_\_\_\_ is communication that relies on hearing.  
**Auditory communication**

\_\_\_\_\_ is the way a word or a language is customarily spoken  
**Orthoepy**

\_\_\_\_\_ is the use of speech for informal exchange of views or ideas or information  
**Conversation**

\_\_\_\_\_ is an exchange of views on some topic  
**Discussion**

The following are the advantages of oral communication

1. It is a learnable and improvable human activity.
2. It is a more accurate reflection of thought and attitude of the speaker.
3. It creates and sustains warm, interpersonal relationships.
4. It combines sight and sound, thus enabling participants to benefit from both verbal and non-verbal stimulus.
5. It can satisfy man's needs and desires (wants) more quickly than writing or gestures.
6. It allows for instantaneous exchange of ideas, information, opinions, feelings and attitudes.

The following are the disadvantages of oral communication

1. It lacks permanence.
2. It does not allow participants' thought to crystallise, thus resulting in imprecise communication and even outright errors which could be avoided in written communication.
3. There is possibility of distortion of meaning.
4. It can easily be denied.

5. It has little weight as contractual evidence. 6. It is usually not admissible in evidence in the law court.

\_\_\_\_\_ could be simply defined as communication by means of written symbols (either printed or handwritten).

### **Written communication**

\_\_\_\_\_ as a system of communication is an offshoot of speech

### **Writing**

Writing as a system of communication is an offshoot of \_\_\_\_\_  
**speech**

There is no language that exists in written form without a spoken form.

### **True**

\_\_\_\_\_ is the collected work of an author

### **Writings**

\_\_\_\_\_ is written instructions from a physician or dentist to a druggist concerning the form and dosage of a drug to be issued to a given patient.

### **Prescription**

\_\_\_\_\_ written instructions for an optician on the lenses for a given person.

### **Prescription**

\_\_\_\_\_ is communication by the exchange of letters

### **Correspondence**

\_\_\_\_\_ is the text appearing in a book, newspaper, or other printed publication

### **Print**

The following are the advantages of written communication

1. It provides opportunities for record keeping.
2. It is amenable to conveying complex messages, information, and ideals as well as explaining difficult process.
3. It can be reproduced through various reprographic processes and dispatched to widely scattered receivers.
4. It provides avenues through which oral transaction can be clarified, analysed and confirmed.
5. It provides a basis for contractual agreements.
6. It reduces the chance of distortion.

The following are the disadvantages of written communication

- (1) It may require a laborious effort to produce.
- (2) It lacks the warmth of interpersonal relationships.
- (3) It may be expensive especially when it requires being dispatched to scattered receivers.
- (4) It delays feedback.
- (5) It makes it difficult for the sender to modify his message once it is composed and dispatched.
- (6) It multiplies errors, particularly with the advances in the technology of message dissemination through computer networks, fax, e-mail etc.
- (7) It requires a good level of literacy on the part of the receiver

\_\_\_\_\_ is any information that is communicated without using words.

### **Non-verbal communication**

Non-verbal communication is often referred to as \_\_\_\_\_  
**untalk communication or silent language**

\_\_\_\_\_ is a powerful arsenal in the face-to-face communication encounters, expressed consciously in the presence of others and perceived either consciously or unconsciously.

**Non-verbal communication**

The following are characteristics of non-verbal communication

1. non-verbal communication is culturally determined
2. non-verbal message may conflict with verbal message
3. non-verbal message are largely unconscious
4. non-verbal communication shows your feelings and attitudes

The following are functions of non-verbal communication

1. Complementing
2. Regulating
3. Substituting
4. Accenting

\_\_\_\_\_ deals with the extra-linguistic aspects of communication. It concerns voice rather than words.

**Vocalics**

Vocalics is also called \_\_\_\_\_  
**paralanguage**

Kinesics is also called \_\_\_\_\_  
**body language**

Oculesics is also called \_\_\_\_\_  
**eye language**

The most frequent cosmetic procedures for women are (in order):\_\_\_\_\_, breast augmentation and collagen injections.

**liposuction**

The most frequent cosmetic procedures for women are (in order): liposuction, \_\_\_\_\_ and collagen injections.

**breast augmentation**

The most frequent cosmetic procedures for women are (in order): liposuction, breast augmentation and \_\_\_\_\_.

**collagen injections**

\_\_\_\_\_ are said to be 'beautiful', 'attractive' and 'sweet'.

**Human voice**

\_\_\_\_\_ means a lot in communication.

**Gesture**

\_\_\_\_\_ is essentially a neuro-physiological activity which involves some mental interviews for the purposes of information processing and decision making.

**Intra-personal communication**

\_\_\_\_\_ is the active internal involvement of the individual in symbolic processing of messages.  
**Intrapersonal communication**

\_\_\_\_\_ occurs when you communicate on a one-to-one basis usually in an informal, unstructured setting.

**Interpersonal communication**

\_\_\_\_\_ says that we attempt to gain information about others so that we can interact with them more effectively.

**Social Penetration Theory**

\_\_\_\_\_ refer to the surface level meaning of a message.

**Content messages**

\_\_\_\_\_ refer to how a message is said.

**Relationship messages**

The \_\_\_\_\_ we play in our relationships help us establish identity.  
**roles**

\_\_\_\_\_ is the need to establish identity with others.

**Inclusion**

\_\_\_\_\_ is the need to exercise leadership and prove one's abilities

**Control**

\_\_\_\_\_ is the need to develop relationships with people

**Affection**

Donnel King (2000) identifies \_\_\_\_\_ major principles that underlie the workings of interpersonal communication in real life and which cannot be ignored.  
**four**

Interpersonal communication is one way.

**True**

No form of communication is simple.

**True**

\_\_\_\_\_ is who you are and what you bring to the interaction.

**Psychological context**

\_\_\_\_\_ concerns your reactions to the other person--the "mix."

**Relational context**

\_\_\_\_\_ deals with the psycho-social "where" in which you are communicating.

**Situational context**

\_\_\_\_\_ deals with the physical "where" in which you are communicating.

**Environmental context**

\_\_\_\_\_ includes all the learned behaviors and rules that affect the interaction.

**Cultural context**

Interpersonal communication has \_\_\_\_\_ major types.  
**three**

The following are the types of interpersonal communication

1. Dyadic communication
2. Public speaking
3. Small-group communication

\_\_\_\_\_ is simply a method of communication that only involves two people such as a telephone conversation or even a set of letters sent to and received from a pen pal.

### **Dyadic communication**

In \_\_\_\_\_ communication process, the sender can immediately receive and evaluate feedback from the receiver.

### **Dyadic**

The basic elements involved in interpersonal communication process are:

1. Sender; person who sends information.
2. Receiver: person who receives the information sent.
3. Message: content of information sent by sender.
4. Feedback: response from receiver.

\_\_\_\_\_ is where the sender manipulates the information that he communicates to the receiver.

### **Filtering**

\_\_\_\_\_ normally consists of attacking what the sender tells you, putting out sarcastic remarks, questioning their motives or being overly judgmental about the subject matter.

### **Defensiveness**

\_\_\_\_\_ should be avoided when talking to someone who isn't familiar with you personally or within your organization

### **Jargon**

Communication and relationship are intertwined.

### **True**

\_\_\_\_\_ is formed whenever reciprocal data processing occurs

### **Relationship**

Relationship can be \_\_\_\_\_, triadic or quadradic.

### **dyadic**

Relationship can be dyadic, \_\_\_\_\_ or quadradic.

### **triadic**

Relationship can be dyadic, triadic or \_\_\_\_\_.

### **quadradic**

The following are the advantages of interpersonal relationships

1. To lessen loneliness
2. To secure stimulation
3. For self-knowledge and self-esteem
4. To enhance physical and emotional health
5. To maximise pleasure and minimise pain

The following are the disadvantages of interpersonal relationships

- Pressure for exposure
- Increased obligations
- Increased Insulation
- Difficulty in dissolving

Communication within oneself is called \_\_\_\_\_ communication.

**Intra-personal**

Communications that involve two or more persons are referred to as \_\_\_\_\_ communication.

**Interpersonal**

Communication involving a group of people is called \_\_\_\_\_ communication

**Group**

\_\_\_\_\_ form of communication occurs among a small number of people for the purpose of solving a problem.

**Group Communication**

The communication process in group communication is more complex than in interpersonal communication because \_\_\_\_\_

**the group members are made up of several sender-receivers**

\_\_\_\_\_ carried out the first important research study of small group communication.

**Robert Bales**

The implication that group discussion goes through the same series of stages in the same order for any decision making group is known as \_\_\_\_\_.

**Linear phase model**

According to Barry Collins and Harold Guetzkow, a task group is confronted with \_\_\_\_\_ types of problems.

**two**

\_\_\_\_\_ are difficulties encountered by the group, such as planning an event or approving a policy

**Task obstacles**

\_\_\_\_\_ difficulties encountered between people, making ideas clear to others, handling conflict and differences

**Interpersonal obstacles**

\_\_\_\_\_ is the effort expended by the group in solving tasks (effective synergy) and dealing with interpersonal obstacles (intrinsic synergy)

**Synergy**

According to Irving Janis (1999:286), \_\_\_\_\_ is a mode of thinking that people engage in when they are deeply involved in a cohesive ingroup, when the members' strivings for unanimity override their motivation to realistically appraise alternative courses of action.

**Groupthink**

\_\_\_\_\_ is the act of one person followed by the act of another

**An interact**

Opportunity for verbal \_\_\_\_\_ is limited in most public communication.  
**feedback**

\_\_\_\_\_ could be defined as the communication between two or more nations or communication across international boundaries.

### **International communication**

International communication arose because \_\_\_\_\_  
**of the need to maintain international friendship and relations as well as to understand and keep abreast of happenings around the world**

\_\_\_\_\_ is a misnomer.

### **Foreign news**

Foreign news is a \_\_\_\_\_.  
**misnomer**

The first printing press arrived in North America in \_\_\_\_\_.  
**1638**

The first printing press arrived in North America in 1638, operated by a company called \_\_\_\_\_.  
**Cambridge press**

Printing was limited to \_\_\_\_\_ and government documents.  
**religious**

Printing was limited to religious and \_\_\_\_\_ documents.  
**government**

The first book printed was \_\_\_\_\_.  
**The Whole Booke of Psalms**

The Whole Booke of Psalms is sometimes referred to as the \_\_\_\_\_.  
**Bay Psalm Book**

The first book printed was in \_\_\_\_\_.  
**1644**

Over \_\_\_\_\_ years ago, alphabets were developed independently in several places around the world.  
**5,000**

Over 5,000 years ago, \_\_\_\_\_ were developed independently in several places around the world.  
**alphabets**

\_\_\_\_\_ require a huge number of symbols to convey even the simplest idea.  
**Ideogrammatic alphabets**

The \_\_\_\_\_ developed the cuneiform to meet their need of a more precise writing, other than face-to-face communication as those enjoyed in their international trade across the Europe, Africa and Asia.  
**Sumerians**

\_\_\_\_\_ cuneiform slowly expanded, using symbols to represent sounds rather than objects and ideas.  
**Sumerians**

\_\_\_\_\_ is changing the way books are distributed and sold.

**Internet**

Internet is changing the way \_\_\_\_\_ are distributed and sold.  
**books**

Internet is changing the way books are \_\_\_\_\_ and \_\_\_\_\_.  
**distributed and sold**

\_\_\_\_\_ can take the form of the d-books (digital books) and print on demand (POD)

**E-publishing**

E-publishing can take the form of the \_\_\_\_\_  
**d-books (digital books) and print on demand**

E-publishing can take the form of the d-books (digital books) and \_\_\_\_\_.  
**print on demand**

POD stand for \_\_\_\_\_.  
**print on demand**

Many d-books are designed to be read on handheld computers called \_\_\_\_\_.  
**e-books**

The first successively published title was \_\_\_\_\_ of 1622.  
**The Weekly Newes**

The first successively published title was The Weekly Newes of \_\_\_\_\_.  
**1622**

The first true newspaper in English was the \_\_\_\_\_ of 1666.  
**London Gazette**

The first true newspaper in English was the London Gazette of \_\_\_\_\_.  
**1666**

\_\_\_\_\_, one-page news sheets were printed in English in Holland in 1620.  
**Corantos**

Corantos, one-page news sheets were printed in English in Holland in \_\_\_\_\_.  
**1620**

The first newspaper published in Germany was found in \_\_\_\_\_ by Egenolph Emmel.  
**1609**

The first newspaper published in Germany was found in 1609 by \_\_\_\_\_.  
**Egenolph Emmel**

As at \_\_\_\_\_ there were at least 16 newspapers in Germany.  
**1633**

As at 1633 there were at least \_\_\_\_\_ newspapers in Germany.  
**16**

In\_\_\_\_\_, postmaster Jelm Campell joined with Bartholomew Green to publish a newspaper called the Boston News-Letter.

**1704**

In 1704, postmaster Jelm Campell joined with Bartholomew Green to publish a newspaper called the\_\_\_\_\_.

**Boston News-Letter**

By\_\_\_\_\_, The News-letter received competition from the News England Courant published by James Franklin, the older brother of Benjamin Franklin.

**1721**

**Civil War**

Magazines began to have mass circulation after the American \_\_\_\_\_ War  
**Civil**

Online magazines face certain challenges as at now.  
**True**

The sustenance and profitability of magazine business, made possible by \_\_\_\_\_ has brought much influence on magazine content  
**advertisement**

\_\_\_\_\_ made newspapers and magazines possible, brought scientific and technological development, and technology  
**Printing**

\_\_\_\_\_ gave us mass market magazines.  
**Industrialization**

Magazine started in \_\_\_\_\_ by Daniel Defoe as a weekly periodical called the Review.  
**1704**

Magazine started in 1704 by Daniel \_\_\_\_\_ as a weekly periodical called the Review.  
**Defoe**

Magazine started in 1704 by Daniel Defoe as a weekly periodical called\_\_\_\_\_.

## **the Review**

In \_\_\_\_\_, Gutenberg conceived of the idea for movable type.  
**1452**

In 1452, \_\_\_\_\_ conceived of the idea for movable type.  
**Gutenberg**

\_\_\_\_\_ got credit for an invention that was thought to have been developed simultaneously in Holland and in Prague.  
**Gutenberg**

\_\_\_\_\_ is the era of religious publications; the age of religious "manuscript" book production when Bibles and other religious publications were made.  
**7th to 13th Century**

\_\_\_\_\_ is the era of secular book production; the secularization of book production  
**13th to 15th Century**

\_\_\_\_\_ is a general term used to describe a type of paper suitable for printing, especially offset printing.  
**Paper**

Premium book paper is also called \_\_\_\_\_.  
**Bible grade**

Book Paper may be \_\_\_\_\_ or uncoated.  
**coated**

Book Paper may be coated or \_\_\_\_\_.  
**uncoated**

Book paper has a basic size of \_\_\_\_\_.  
**25" x 38"**

\_\_\_\_\_ is a thin, lightweight, opaque printing paper with a basic size of 25" x 38".  
**Bible paper**

\_\_\_\_\_ is an inexpensive paper made primarily of mechanically ground wood pulp rather than chemical pulp.  
**Newsprint**

\_\_\_\_\_ has a shorter lifespan than other papers but is cheap to produce in bulk and is the least expensive paper that can withstand normal printing processes.  
**Newsprint**

Newsprint has a basic size of \_\_\_\_\_.  
**24" x 36"**

\_\_\_\_\_ is the type of paper used for newspapers and may also be used for comic books, some newsletters and trade magazines and buy/sell/trade classified ad weeklies.  
**Newsprint**

\_\_\_\_\_ the term for a heavy, stiff paper with a basic size of 20" x 26".

## **Cover paper**

Cover paper is also known as \_\_\_\_\_.  
**card stock**

\_\_\_\_\_ is used for book covers, file folders, presentation folders, greeting cards, business cards, postcards, and brochures.

## **Cover paper**

\_\_\_\_\_ could be defined as a professional activity involving the selection, development and editing of manuscripts; contractual agreements with authors or copyright holders; production and marketing of printed books under the firm's imprint; and the assumption of the risks associated with these activities.

## **Book publishing**

\_\_\_\_\_ is a book intended for the public in general, including literary works, how-to books, dictionaries, encyclopedias and reference works intended for professionals.

**Trade book**

\_\_\_\_\_ is a publication dependent on a financial contribution from, or an initial purchase by, the author.

**Vanity title**

Royalties usually range between \_\_\_\_\_% of recommended retail price.

**10-12**

\_\_\_\_\_ process prepares the work for printing through processes such as typesetting, dust jacket composition, specification of paper quality, binding method and casing, and proofreading.

**Prepress**

When a final text is agreed upon, the next phase is\_\_\_\_\_.

**design**

\_\_\_\_\_ evolved mainly in about the last twenty years of the 20th century.

**Prepress computerization**

In\_\_\_\_\_, De Forest perfected the audio tube, which became the vacuum tube, making possible the clear transmission of voice and music.

**1906**

A series of broadcasts followed and \_\_\_\_\_ began to gain ground.

**radio**

In\_\_\_\_\_, Westinghouse engineer Frank Conrad began broadcasting phonograph music over a transmitter in his Pittsburgh garage as part of his experiments in radiotelephony.

**1920**

In 1920, Westinghouse engineer \_\_\_\_\_ began broadcasting phonograph music over a transmitter in his Pittsburgh garage as part of his experiments in radiotelephony.

**Frank Conrad**

A.T and T signed WEAJ on the air but sold it to RCA in\_\_\_\_\_.

**1926**

NBC operated two networks until \_\_\_\_\_ when one was sold

**1943**

\_\_\_\_\_, a German physicist in 1888 made the sensational discovery of radio waves, a form of electromagnetic radiation with wavelengths too long for our eyes to see, confirming Maxwell's ideas.

**Heinrich Hertz**

The world's first radio factory was opened in\_\_\_\_\_.

**1898**

The Daily Express was the first newspaper to obtain news by wireless telegraphy in August \_\_\_\_\_

**1898**

Discovery of electromagnetic induction by \_\_\_\_\_ in 1831.

**Michael Faraday**

Discovery of electromagnetic induction by Michael Faraday in\_\_\_\_\_.

**1831**

\_\_\_\_\_ in April 1872 received U.S. Patent 126,356 for radio development.

**William Henry Ward**

William Henry Ward in April \_\_\_\_\_ received U.S. Patent 126,356 for radio development.

**1872**

Maxwell equations were developed by \_\_\_\_\_

**James Clerk Maxwell**

\_\_\_\_\_ made experiments with electromagnetic waves.

## **James Clerk Maxwell**

In July\_\_\_\_, Mahlon Loomis received U.S. Patent 129,971 for a "wireless telegraph".  
**1872**

In July 1872, \_\_\_\_\_ received U.S. Patent 129,971 for a "wireless telegraph".  
**Mahlon Loomis**

In July 1872, Mahlon Loomis received U.S. Patent 129,971 for a \_\_\_\_\_.  
**wireless telegraph**

In\_\_\_\_\_, Temistocle Calzecchi-Onesti at Fermo in Italy invented a tube filled with iron filings, called a "coherer".  
**1884**

In 1884, Temistocle Calzecchi-Onesti at Fermo in Italy invented a tube filled with iron filings, called a \_\_\_\_\_.  
**coherer**

In\_\_\_\_\_, Edison took out U.S. Patent 465,971 on a system of radio communication between ships  
**1885**

Between 1886 and 1888, \_\_\_\_\_ validated Maxwell's theory through experiment.  
**Heinrich Rudolf Hertz**

\_\_\_\_\_ developed means to reliably produce radio frequencies, publicly demonstrated the principles of radio, and transmitted long distance signals.  
**Nikola Tesla**

In \_\_\_\_\_ Lodge sold the patent to Marconi.  
**1912**

In\_\_\_\_\_, Marconi receives a telegraph message without wires a short distance  
**1895**

The \_\_\_\_\_ technology can be divided along two lines  
**History of television**

The History of television technology can be divided along \_\_\_\_\_ lines  
**two**

Nipkow proposed and patented the first electromechanical television system in\_\_\_\_\_.  
**1884**

In\_\_\_\_\_, Baird transmitted a signal over 438 miles of telephone line between London and Glasgow.  
**1927**

In\_\_\_\_\_, Baird became involved in the first experimental electromechanical television service in Germany.  
**1929**

\_\_\_\_\_ was the world's first to demonstrate colour transmission on July 3, 1928  
**John Logie Baird**

FCC stands for\_\_\_\_\_

**Federal Communications Commission**

NBC (owned by RCA) made its first field test of colour television on \_\_\_\_\_

**February 20, 1941**

CBS began daily colour field tests on \_\_\_\_\_

**June 1, 1941**

NTSC stands for\_\_\_\_\_

**National Television System Committee**

\_\_\_\_\_ became the second country in the world to introduce colour television broadcasting

**Cuba**

Canada experienced its colour television stations not until\_\_\_\_\_.

**1966**

In Africa, the first colour television service was introduced on the Tanzanian island of Zanzibar in \_\_\_\_\_

**1973**

DBS stands for\_\_\_\_\_

**Direct broadcast satellite**

MMDS stands for\_\_\_\_\_

**multichannel multipoint distribution service**

\_\_\_\_\_ is the Father of Radio

**Guglielmo Marconi**

In\_\_\_\_\_, John A. Fleming developed a glass bulb tube- the diode tube which became the basis for radio signal amplification of voice transmissions.

**1904**

In 1904, \_\_\_\_\_ developed a glass bulb tube- the diode tube which became the basis for radio signal amplification of voice transmissions.

**John A. Fleming**

\_\_\_\_\_ is a medium of communication which combines visual and audio (audiovisual).

**Film**

\_\_\_\_\_ contains the recording of a story, acted by people to make it as close to reality as possible.

**Film**

The \_\_\_\_\_ English Dictionary defines film as a sequence of images of moving objects photographed by a camera providing the optical illusion of continuous movement when projected onto a screen.

**Collins**

In\_\_\_\_\_, Muybridge arranged a series of still camera along a stretch of racetrack.

**1877**

In 1877, \_\_\_\_\_ arranged a series of still camera along a stretch of racetrack.

## **Muybridge**

By \_\_\_\_\_, Edison built a crude motion picture studio called "Black Maria"  
**1891**

By 1891, Edison built a crude motion picture studio called \_\_\_\_\_  
**Black Maria**

From Black Maria came a series of very short films, which were shown, on a large contraption called a \_\_\_\_\_.  
**Kinetoscope**

The next advance on film was made by two French men the \_\_\_\_\_.  
**Lumiere brothers**

The \_\_\_\_\_, as the device was called was premiered in New York City on April 23, 1896, and the American movie business was born.  
**vita scope**

In \_\_\_\_\_, sound was introduced to motion pictures.  
**1927**

Film flourished even through the Great depression of the \_\_\_\_\_.  
**1930s**

Originally, a \_\_\_\_\_ is any story that has a happy ending.  
**comedy**

\_\_\_\_\_ can be easily identified by its appearance and plots, and by the deliberate way that these plots are arranged so as to influence the attitude of the audience by generating laughter.  
**Comedy**

\_\_\_\_\_ is a broad term that is applicable to most movies.  
**Melodrama**

\_\_\_\_\_ heroes are usually full of virtues.  
**Adventure**

Adventure \_\_\_\_\_ are usually full of virtues.  
**heroes**

\_\_\_\_\_ place emphasis on suspense and fearful anticipation.  
**Thrillers**

A \_\_\_\_\_ is a film that is predominantly musical in content and which is mostly combined with dances or some sort of movement.  
**music video**

A \_\_\_\_\_ is a factual film about an event, thing or person, and it presents the facts with little or no fiction.  
**documentary**

\_\_\_\_\_ is a film that captures the various stages of the existence or the process by which something is achieved.

## **Documentary**

\_\_\_\_\_ artist has the responsibility of ensuring quality sound output of the film.

**Sound director**

The \_\_\_\_\_ handles the editing of the production.

**editor**

\_\_\_\_\_ selects good 'shots' and 'takes' from among the numerous ones taken on location, and arranges them together.

**Editor**

MATV stands for \_\_\_\_\_

**master antennal television**

In \_\_\_\_\_ Sterling Manhattan cable (company) launched a new channel, Home Box office (HBO).  
1972,

In 1972, Sterling Manhattan cable (company) launched a new channel called \_\_\_\_\_  
**Home Box office (HBO)**

HBO stands for \_\_\_\_\_

**Home Box office**

\_\_\_\_\_ employs a satellite dish on top of a building to capture signals and then distributes them throughout that structure.

**Satellite masters antenna**

SMATV stands for \_\_\_\_\_

**Satellite masters antenna**

\_\_\_\_\_ employs a home microwave receiver to collect signals and pipe them through the houses via internal wiring.

**Microwave multi distribution system**

MMDS stands for \_\_\_\_\_

**Microwave multi distribution system**

Wikipedia defines the \_\_\_\_\_ as a worldwide, publicly accessible series of interconnected computer networks that transmit data by packet switching using the standard Internet Protocol (IP).

**Internet**

IP stands for \_\_\_\_\_

**Internet Protocol**

\_\_\_\_\_ is the fastest – growing communications medium ever.

**Internet**

The \_\_\_\_\_ has positioned itself as a formidable resource for business information in developing countries.

**Internet**

The first full-service electronic computer, introduced in 1946 was \_\_\_\_\_

**ENIAC**

ENIAC stands for\_\_\_\_\_

**Electronic Numerical Integrator and Calculator**

The commercial computers were introduced by the efforts of\_\_\_\_\_.

**IBM**

\_\_\_\_\_ is the idea that the new communication technologies will permit people to become increasingly involved in one another's lives.

**Global village**

Online magazine is also known as\_\_\_\_\_.

**Webzines**

\_\_\_\_\_ is the soft copy/online version of magazine.

**Online magazine**

An online magazine that caters to a niche or special interest subject matter, i.e.azine, is referred to as an \_\_\_\_\_

**ezine**
